

## **DJANGO FESTIVAL ALLSTARS**

**“HOT JAZZ”**

Django's unmistakable cool and jumpin' jole de vivre have made him an icon for an unlikely range of luminaries from Carlos Santana to Eric Clapton, guitar greats! Jimi Hendrix named his “big band of gypsies” in tribute, and Willie Nelson adopted his influence in “country-swing.”

The Django Festival Allstars, have grown into a brilliantly cohesive group of star musicians who've taken America by storm, performing at top concert halls and festivals to standing ovations.

The music speaks of Paris in the 20s and 30s when “gitane” music filled the air, in the cafés, the streets, in the countryside, a romantic Paris with lovers, campfires, a time of Montmartre, la belle époque, le Boudon café, café au lait, luscious pastry, and a great glass of wine. Django was "king". He teamed with Jazz Violinist Stephane Grappelli and made musical history.

The Django Festival Allstars bring this music to 'today'... combining known standards and original music...intoxicating!! They swing like crazy and will break your heart with a ballad.
